REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **8-13** are allowable over the prior art of record because the prior art does not teach or suggest a method for making a sensor of physical qualities comprising the steps of preparing, electrically connecting, plunging, performing and performing as presently claimed, esp., the steps of performing an electrolytic deposition of at least one conductive metal on the pin ends, the connection pads, and the conductive elements that connect them; and performing an oxidizing or nitrizing operation on the metal to make an insulating coat on the connection pads, the pin ends, and the conductive elements that connect them.

Claim **14** is allowable over the prior art of record because the prior art does not teach or suggest a sensor of physical quantities obtained by the method of claim 8.

The prior art does not contain any language that teaches or suggests the above.

Takao et al. teaches an oxygen sensor.

Simmonds teaches a method for bonding a thin ribbon superconducting lead to a thin film bonding pad on a device substrate.

JP 59-161852 teaches a passivation layer **3'** surrounding the pad part of a wire **4'** (abstract).

JP 10-242205 teaches electrolessly plating on W or Mo terminals (abstract).

JP 2003-322574 teaches a pressure sensor (abstract).

Therefore, a person skilled in the art would not have been motivated to adopt the

above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edna Wong whose telephone number is (571) 272-1349. The examiner can normally be reached on Mon-Fri 7:30 am to 3:30 pm, Flex Schedule.
